Affordability and Premium Tax Credit Eligibility for Employees and Family Members (100-400% FPL)

Notes:

- 1. This flowchart assumes that plans offered by the employer meet minimum value standards (actuarial value of at least 60 percent).
- 2. Employees and family members who may be eligible for tax credits must meet other requirements before fully qualifying, such as having legal residence and not having access to government-based plans (Medicaid, Medicare, VA, etc.).
